Growth Mindset

At Snow Horse, we work, teach and create a growth mindset culture—persisting when things are difficult, and recognizing the brain grows when we persist through challenges. Part of this involves changing our words. For example, instead of “I can’t do this, it’s too hard,” say/think “I can’t do this YET, but I will keep trying.”

As a parent, you can help facilitate a growth mindset by praising the process. Instead of saying, “You’re so smart,” praise effort, goal setting and persistence with something like, “Wow! You must have worked really hard on this.”

Great Student Comment:

A first grade student asked me “If you could be any kind of animal , what kind of animal would you be?

I said, “Hmm, let me think, what would yours be?”

He said, “I can’t answer until I know yours.”

I responded, “A dolphin.”

He quickly came back with, “Ok, that’s easy then. I’d be a sea turtle so we could play together.”
